Write the words "leisure activities" on the board and ask students to think of as many free time activities as they can in two minutes. Encourage them to shout out their ideas, and write them down for everyone to see. This activity will not only activate their prior knowledge but also introduce key vocabulary related to free time activities, setting the stage for further exploration of the topic in the lesson.

Main ESL Lesson Activities

Vocabulary Activity: Free Time Activities Word Search

Provide students with a word search puzzle containing words related to free time activities. Encourage them to work in pairs or small groups to find and circle the words. After completing the puzzle, ask students to take turns sharing sentences using the words they found, promoting both vocabulary retention and speaking practice.

Listening Activity: Leisure Activities Interview

Pair up students and have them interview each other about their favorite leisure

activities. One student asks questions while the other takes notes. Then, they switch roles. This activity provides listening practice as well as an opportunity for students to share their interests with each other.

Roleplay Activity: Planning a Leisure Weekend

Divide the class into small groups and assign each group a scenario where they need to plan a leisure weekend trip. Students should collaborate and discuss different free time activities they would like to do during this weekend, considering factors such as weather, location, and group preferences. This roleplay activity encourages teamwork, decision-making skills, and language practice.

Reading and Writing Activity: Creating Free Time Activity Brochures

Ask students to design a brochure promoting various leisure activities in their city or town. They can include information such as popular places for these activities, equipment needed, or any special offers available nearby. This activity integrates reading (researching for information) with writing (creating compelling content), allowing students to express themselves creatively while reinforcing vocabulary related to free time activities.

ESL Homework Assignment

For homework, students are encouraged to create a collage or a short presentation showcasing their favorite free time activities. They can include images or drawings along with descriptions of each activity. This assignment not only reinforces the vocabulary and expressions learned in class but also provides an opportunity for students to share their interests with their peers during the next lesson.
