## ESL Warm-up Activity

To kickstart the Karaoke ESL lesson plan, begin with a fun icebreaker activity. Prepare a list of popular English songs that feature repetitive and catchy choruses. Play short segments of these songs and have students guess the missing words from the chorus lyrics. This not only introduces students to familiar tunes but also primes their ears for listening to English words and phrases in music. Encourage them to sing along if they know the lyrics or attempt to fill in the blanks for added engagement. This activity sets a lively, interactive tone for the lesson while naturally integrating language elements that will be explored further during karaoke activities.

## Main ESL Lesson Activities

### Vocabulary Karaoke

For the Vocabulary Karaoke activity, select a fun and lively song with clear lyrics. Share the lyrics with the students and ask them to identify new words or phrases they are unfamiliar with. Discuss these words as a group, focusing on their meaning, pronunciation, and usage in context. Then, play the song and have the students sing along while paying attention to the vocabulary discussed.

### Listening Challenge

In this activity, provide each student or pair of students with different songs that they haven't heard before. Ask them to listen carefully to the song and write down any English words or phrases they recognize. Afterward, encourage a group discussion where students can share what they understood from their assigned songs.

## **Roleplay Performance**

Divide the class into small groups and assign each group a song. Ask them to create a short roleplay performance based on the story told in their given song's lyrics. This exercise encourages creativity while strengthening language comprehension through interpretation of song narratives.

## **Lyrics Analysis & Writing**

Distribute printed copies of various English songs' lyrics for analysis. Have students choose a set of lyrics that resonate with them and ask them to write about how those particular lyrics make them feel or what they think is being expressed in those lines. Encourage sharing within small groups for reflection on individual interpretations.

## **ESL Homework Assignment**

### **Lyric Interpretation**

Assign each student a song with meaningful lyrics and ask them to interpret the meaning of the song based on its poetry. Encourage them to write a short paragraph explaining their interpretation and feelings about the song.

# Music Review

Request students to find an English-language music album or playlist of their choice, listen to it, and write a review discussing how music can be used to improve language skills. They should include specific examples from the songs that highlight vocabulary, pronunciation, or expressions learned in class.

These assignments aim to reinforce language learning outside of the classroom by integrating music into their independent study.
