This activity not only incorporates the colors from "Little Blue and Little Yellow" but also sets the tone for discussing emotions and feelings – an essential aspect of the upcoming lesson.

Main ESL Lesson Activities

Vocabulary Activity: Color Mix-Up

Start by introducing basic color vocabulary using flashcards. Then, divide the class into pairs and provide each pair with a set of colored markers or crayons. Instruct the students to mix colors and create new ones, using the vocabulary words they've learned (e.g., mixing blue and yellow to make green). Encourage them to label the new colors they create.

Listening Activity: Emotion Charades

Write down different emotions on small pieces of paper (happy, sad, angry,

surprised, etc.). Have students take turns picking a piece of paper and acting out the emotion without speaking while their classmates guess the emotion in English. This activity not only reinforces emotional vocabulary but also improves listening skills.

Roleplay Activity: Little Blue and Little Yellow Story Retelling

Divide the class into small groups and assign each group a part of the story to act out. Encourage them to include dialogue that reflects how Little Blue and Little Yellow feel when they mix together. This activity promotes creativity, language use, and understanding of emotions.

Reading & Writing Activity: Create Your Own Color Story

Ask students to write their own short stories about colors using the vocabulary and emotions learned during this lesson. They can then share their stories with a partner or in small groups, promoting reading comprehension as well as writing skills.

ESL Homework Assignment

Ask students to find and bring in a colorful object from home. They should then write a short paragraph describing the object using the vocabulary and emotions learned in class. Encourage them to be creative with their descriptions, incorporating the new vocabulary words and expressing how certain colors make them feel. This task reinforces the lesson content while also promoting creativity and language practice outside of the classroom.
