## ESL Warm-up Activity

To kick off the Netflix ESL Lesson Plan, start with a fun and interactive activity. Create a "Guess the Genre" game where you show students brief clips from different genres of movies or TV shows available on Netflix. As they watch the clips, have them guess the genre by using key descriptive words related to each genre, such as "action-packed," "suspenseful," or "heartwarming." This not only energizes the class but also helps familiarize students with vocabulary associated with different genres. It sets a lively tone for exploring language within varying contexts that will be encountered throughout the lesson.

## Main ESL Lesson Activities

### Vocabulary Activity: Genre Charades

Split the class into groups and assign each group a different movie genre. Each group will take turns acting out scenes related to their assigned genre while the other groups guess the genre being portrayed. This activity encourages students to use descriptive vocabulary and enhances their understanding of various genres.

### Listening Exercise: Scene Description

Play short clips from different movies or TV shows available on Netflix. After each

clip, have students work in pairs to describe what they heard, including key actions, emotions, and any relevant dialogue. This activity sharpens listening skills and encourages collaborative discussion among students.

## **Roleplay Activity: Reviewing Movies**

Have students roleplay as film critics discussing recently watched Netflix movies or shows. They can take turns being the critic or the filmmaker, expressing opinions about plot lines, character development, cinematography, and more. This promotes fluency in expressing opinions and viewpoints in English within a specific context.

## **Reading & Writing Task: Create a Plot Synopsis**

Divide the class into pairs and provide them with brief descriptions of different movies available on Netflix. Ask each pair to choose one description and expand it into a detailed plot synopsis that they would find interesting for an English-speaking audience. This activity hones reading comprehension skills along with creative writing abilities.

## **ESL Homework Assignment**

For homework, students are tasked with selecting a movie or TV show on Netflix and analyzing its genre, storyline, and character development. They should write a short review summarizing their thoughts on the content they watched. Additionally, students are encouraged to identify specific vocabulary related to the chosen genre and be prepared to discuss it in the next class.

This assignment reinforces understanding of genres discussed in class and encourages independent analysis and expression of opinions in English. It also helps students further engage with language elements relevant to entertainment media.
