Main ESL Lesson Activities

Vocabulary Activity: Vampire vs. Werewolf

Begin by dividing the class into two groups - Team Vampire and Team Werewolf. Each group will create a list of traits and characteristics associated with vampires or werewolves, respectively. Encourage students to use descriptive adjectives and phrases to build their lists. Afterward, they will present their findings to the class, using the vocabulary words they've brainstormed.

Listening Exercise: Character Analysis

Play a short audio clip featuring an excerpt from the Twilight series while providing a transcript for reference. In pairs or small groups, students will listen to the passage and analyze the characteristics of one of the characters discussed in the segment. Following this, they will engage in discussions about their assigned character's personality traits, motivations, and impact on the story.

Roleplay: Modern-Day Vampires

In this activity, students will work in pairs to create a dialogue between two modern-day vampires discussing how they adapt to contemporary life while keeping their true identities hidden. Encourage them to use vocabulary related to technology, social interactions, and popular culture as part of their conversation.

Reading and Writing: Book Review

Assign each student a different book from the Twilight series (or any novel with similar themes). Their task is to write a concise book review focusing on key elements such as plot summary, character analysis, favorite quotes/dialogues/segments from specific chapters that resonate with them personally as well as focus on expressing their opinion clearly using newly learned vocabulary words related to vampires, werewolves etc.
