ESL Warm-up Activity

To kick off the Chores ESL Lesson Plan, start with a fun and interactive activity called "Chores Charades." Write down various household chores on separate pieces of paper and put them in a hat or a bowl. Ask students to take turns picking a chore and acting it out without speaking while the rest of the class guesses what chore they are miming. This activity not only gets students moving and engaged but also introduces them to the vocabulary related to chores in an entertaining way, setting a lively tone for the lesson.

Main ESL Lesson Activities

Vocabulary Activity: Chore Charades

To reinforce the vocabulary related to chores, divide the class into two teams. One student from each team will come to the front of the class and act out a chore while their team tries to guess what it is. This activity encourages students to use the newly learned vocabulary in a fun and interactive way.

Listening Activity: Chore Instructions

Provide students with audio recordings or videos of chore instructions. After listening, have them write down the steps they heard and then discuss in pairs or

small groups to compare their notes. This activity helps improve listening skills and reinforces understanding of chore-related vocabulary.

Roleplay Activity: Daily Chores Skit

In pairs, have students create a short skit where they act out a typical day of doing household chores. Encourage them to incorporate as much chore-related vocabulary as possible. After practicing, students can perform their skits for the class, promoting speaking and role-playing skills.

Reading and Writing Activity: Chore Schedule

Ask students to create a weekly chore schedule for themselves or their families using the vocabulary learned in class. They can then present their schedules to the class, explaining who does which chore on which day. This activity enhances reading, writing, and presentation skills while reinforcing chore-related vocabulary.

ESL Homework Assignment

For homework, students can interview a family member or friend about their household chores and routines. They should then write a short paragraph or create a presentation summarizing the chores discussed and the frequency with which they are done. This assignment reinforces the lesson content by encouraging students to use chore-related vocabulary in real-life conversations and written communication.
