## ESL Warm-up Activity

To kick off the Disney ESL Lesson Plan, start with a fun activity called "Disney Character Charades." Write the names of various Disney characters on small cards or pieces of paper. Have students take turns picking a card and silently acting out the character while their classmates guess who it is. This activity not only energizes the class but also introduces students to Disney characters, setting the stage for the lesson ahead. Encourage students to use descriptive English words to give clues and guess the characters, fostering language use related to the Disney theme.

## Main ESL Lesson Activities

### Vocabulary Activity: Disney Word Scramble

Divide the class into small groups and provide each group with a list of Disney-related words that have been scrambled. Students must work together to unscramble the words within a time limit. This activity encourages collaboration and reinforces vocabulary related to Disney characters, movies, and theme parks.

### Listening Activity: Disney Song Lyrics

Play short excerpts of popular Disney songs and provide students with printed lyrics with some words missing. As they listen, students fill in the blanks with the missing words. Afterward, discuss the meaning of the lyrics and encourage students to share their favorite Disney songs, fostering both listening skills and personal expression.

## **Roleplay Activity: Character Interaction Skits**

Assign pairs of students different Disney character roles and provide them with simple scenarios. For example, one student could be Mickey Mouse greeting visitors at Disneyland, while the other acts as a tourist meeting Mickey. This roleplay activity allows students to practice conversational English in a fun and imaginative way.

## **Reading and Writing Activity: Disney Story Creation**

In small groups, have students create their own original Disney-style story. Encourage them to incorporate vocabulary from the lesson and elements such as magical settings or beloved characters. After writing their stories, each group can share their creations with the class, promoting creativity and language production.

## **ESL Homework Assignment**

For homework, students are tasked with watching a Disney movie of their choice with English audio (if available) or English subtitles. They should then write a short summary of the movie, highlighting the main plot points and their favorite characters. Additionally, students can create a poster or drawing related to the movie and write a few sentences describing their artwork. This assignment reinforces listening skills, comprehension, and encourages creativity while allowing students to further engage with the Disney theme outside the classroom.
