Prepare a set of cards, each representing one of the four Hogwarts houses (Gryffindor, Hufflepuff, Ravenclaw, and Slytherin) and distribute them to the students. Then, ask each student to describe themselves using adjectives that reflect the values of their assigned house. This activity not only introduces vocabulary related to personality traits but also sets the tone for exploring the magical world of Harry Potter.

Main ESL Lesson Activities

Vocabulary Activity: Spellbinding Word Wall

Create a word wall with key terms from the Harry Potter and the Chamber of Secrets book. Divide the class into groups and provide each group with a set of words related to magic, creatures, spells, and characters. Ask them to categorize the words based on their understanding and then present their word wall to the class, explaining their choices.

Listening Activity: Magical Soundscapes

Play audio clips of different magical creatures or spells from the Harry Potter series. Have students listen carefully and write down what they think each sound

represents. Then, in pairs, they can discuss their interpretations before sharing with the class.

Roleplay Activity: Wizarding Interviews

Assign each student a character from the book and have them prepare for a mock interview as if they were that character. Encourage them to use vocabulary and expressions relevant to their character's personality and background. Pair students up for interviews, allowing them to ask questions and respond in character.

Reading and Writing Activity: Enchanted Diary Entries

Ask students to imagine themselves as a character from the story and write a diary entry expressing their thoughts and feelings about a significant event in the book. After writing, students can share their diary entries in pairs or small groups for discussion.

ESL Homework Assignment

For homework, students are tasked with writing a short creative piece set in the magical world of Harry Potter. They can create a new character, describe a magical creature, or invent a spell, and incorporate the vocabulary and expressions learned in class.
