Divide the class into small groups and provide each group with a list of magical terms from the Harry Potter series that have been scrambled. Instruct students to work together to unscramble the words and write down their meanings. Encourage them to discuss and explain the meanings of the words within their groups. This

activity promotes collaboration, vocabulary retention, and understanding of magical terms.

## **Listening Activity: Character Descriptions**

Play audio clips or read aloud descriptions of various characters from the book. Have students listen carefully and identify which character is being described. Afterward, facilitate a class discussion where students can compare their answers and provide evidence from the text to support their choices. ## **Roleplay Activity: Wizarding World Interviews**

Assign each student a character from the book or have them create their own wizarding persona.
