Prepare a set of cards with personality traits or characteristics written on them, such as brave, intelligent, loyal, and ambitious. Ask each student to pick a card and share why they think they embody that trait. This activity not only introduces key vocabulary related to character traits but also sets the tone for exploring the magical world of Harry Potter.

Main ESL Lesson Activities

Vocabulary Activity: Spell Creation

In this activity, students will work in pairs to create their own magical spells using vocabulary from the Harry Potter series. Each pair will brainstorm and write down the name of their spell, its intended effect, and the incantation required to cast it. Afterward, they will present their spells to the class, explaining the meaning of each word used.

Listening Exercise: Character Descriptions

Provide students with descriptions of various characters from the book. In pairs, one student reads out a description while the other listens and guesses which character is being described. This activity helps improve listening skills and reinforces vocabulary related to character traits.

Roleplay: Diagon Alley Market Day

Divide the class into small groups and assign each group a different shop in Diagon Alley (e.g., Ollivanders Wand Shop, Flourish and Blotts). In their groups, students will roleplay as shopkeepers and customers, using dialogue from the book or creating their own conversations. This encourages speaking and roleplaying while reinforcing vocabulary related to shopping and goods.

Reading and Writing: Letter to a Friend

After reading a chapter from the book, ask students to imagine themselves as one of the characters and write a letter to a friend describing their experiences at Hogwarts. This activity combines reading comprehension with creative writing skills, allowing students to express themselves in English while engaging with the story.

ESL Homework Assignment

For homework, students are tasked with writing a short story set in the magical world of Harry Potter. They should incorporate at least five new vocabulary words learned during the lesson and focus on descriptive language to bring the wizarding world to life. This assignment reinforces vocabulary and encourages creative writing skills, allowing students to further engage with the lesson content outside of the classroom.
