Divide the class into small groups and provide each group with the scrambled words. Set a time limit and have them unscramble the words. This activity not only introduces key vocabulary but also encourages teamwork and collaboration among students. It sets the tone for the lesson by getting students actively involved in thinking about marriage-related terms.

## Main ESL Lesson Activities

### Vocabulary Activity: Wedding Word Bingo

Divide the class into small groups and provide each group with a blank bingo card. Ask students to fill in the squares with marriage-related vocabulary words. Then, call out definitions or descriptions of the words, and students mark the corresponding word on their bingo cards. The first group to get a row or column filled shouts "Wedding Bingo!" This activity reinforces vocabulary while adding an element of fun.

### Listening Activity: Wedding Customs Podcast

Play a podcast or audio recording that discusses wedding customs and traditions from different cultures. After listening, have students discuss in pairs or small

groups what they found interesting or surprising about the customs mentioned. This activity encourages listening comprehension and provides an opportunity for group discussions.

## **Roleplay Activity: Wedding Planning Scenario**

Assign roles such as bride, groom, wedding planner, and family members to different students. Provide them with a scenario where they have to plan a wedding, considering various cultural traditions and preferences. Students can work in pairs or small groups to roleplay the scenario, fostering communication skills and cultural awareness.

## **Reading and Writing Activity: Marriage Customs Comparison**

Provide students with articles or short texts about marriage customs from different countries. Ask them to read the texts and then write a comparison highlighting similarities and differences between the customs discussed. This activity promotes reading comprehension, critical thinking, and writing skills while exposing students to diverse cultural practices related to marriage.

## **ESL Homework Assignment**

For homework, students are tasked with interviewing a family member or friend about marriage customs and traditions in their culture. They should prepare a list of questions related to marriage, conduct the interview, and then summarize their findings in a short written report.
