For example, "Which superhero can climb walls like a spider?" or "Who is the billionaire playboy by day and crime-fighting superhero by night?" This activity not only captures students' attention but also incorporates language elements such as descriptive adjectives, superlative forms, and present simple tense when discussing superhero abilities and characteristics.

## Main ESL Lesson Activities

### Vocabulary Activity: Superhero Charades

Divide the class into two teams. Write down various superhero-related vocabulary words on separate pieces of paper and place them in a container. One student from each team will pick a word and act it out without speaking, while their team tries to guess the word. This activity reinforces vocabulary retention and encourages students to use descriptive language.

### Listening Activity: Superhero Storytelling

Play an audio clip or read aloud a short superhero-themed story. Afterward, have students discuss the main events and characters in pairs or small groups. Then, ask comprehension questions to assess their understanding of the story. This activity enhances listening skills and promotes group discussions.

## **Roleplay Activity: Create Your Own Superhero**

In pairs, have students create their own superhero characters with unique superpowers, weaknesses, and backstories. Encourage them to use descriptive language and present their superheroes to the class. This activity fosters creativity, speaking skills, and collaborative work.

## **Reading and Writing Activity: Superhero Comic Strip**

Provide students with blank comic strip templates and ask them to create a short comic featuring superheroes using the vocabulary learned in class. Students can work individually or in pairs to write dialogues and captions for their comics. This activity combines reading, writing, and artistic expression to reinforce language skills.

## **ESL Homework Assignment**

For homework, students are tasked with writing a short story or creating a comic strip featuring their own original superhero character. They should incorporate the vocabulary and language elements learned in class. This assignment reinforces the lesson content, encourages creativity, and provides an opportunity for students to apply their language skills in a fun and imaginative way.
